

THE GUESTHOUSE (ROOM 2-6)

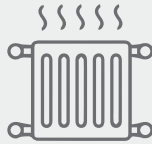

Originally built as classrooms with salvaged materials including antique windows and parquet flooring from sites in Pretoria's "old east". The classrooms were converted into guest rooms in 2012, but were later gutted in a fire in 2016. We had to rebuild the rooms in a period of three months due to the fact that we were fully booked almost 18 months in advance! We are proud of the contemporary spaces that have been created with the eclectic combination of existing infrastructure, recycled materials and modern furniture.

1 Bedroom | 1 Bathroom | Sleeps 2
5 units in total
